typewriter. Isn't it time you
got a Canon?

Deluxe Line

Canon: The

Standard Setter

Canon means quality

If you're reaching for the stars in office equipment, you're reaching for Canon. For decades, Canon research has been coming up with the innovative business products that anticipate people's needs, boost their productivity, and make their jobs a lot more interesting. Products like electronic typewriters, copiers, facsimile machines, micrographics, computers, printers, calculators, and more.

Canon's time-tested expertise in design and production enables us to build equipment with state-of-the-art electronic functions, thoroughbred speed and beauty,

workhorse reliability, and plenty of creature comforts. This kind of know-how, in fact, has earned Canon thousands of patents worldwide.

Canon has earned an international reputation for top quality products and service to match. Our global sales and service network was here yesterday, and will still be here tomorrow, providing solid sales support and prompt service, year after year.

That's why Canon is the choice of people on top...or moving up fast. Because they know how to reach for the stars.

If you're a manager...

You know how important typing productivity can be. When your key staff get the most out of every typing minute, they have more time free for thinking, planning...and assisting you.

Canon's deluxe electronic typewriters give your people every advantage in mastering office work. With top-of-the-line advanced features — combined with easy-to-learn functions — a Canon typewriter is your guarantee of improved office efficiency.

You'll find a complete line of Canons to choose from — with features and prices to match any office's needs. And a Canon electronic can grow right along with your typing load. The AP400 upgrades to an AP500 or AP550 whenever you need to. You can add extra memory, a screen editor, or an ultra-efficient paper handling system at any time, too.

That's why we say Canon electronic typewriters are the fast track professionals...for offices like yours.

VP3000:

Step up to a powerful, stand-alone word processing system that's super easy to use. This simple machine boasts all the advanced editing and formatting features — plus clean, elegant printing — that it takes to turn out top-quality documents. Features like • Advanced yet easy-to-master Canon word processing software. • A high-resolution 25-line adjustable screen with a unique "Magic Window" text framer. • High-speed daisy wheel printer is standard, or choose an optional Canon laser beam printer. • "Typewriter mode" lets the VP3000 be used just like an electronic typewriter.

What's powerful, versatile, and SMART? Quick, quiet, and comfortable to the touch? A desktop status symbol and a tireless worker? And proof positive that your company holds you in high esteem?

The answer? Simple. One of Canon's new-generation, superb AP deluxe electronic typewriters.

What a line! First there's the AP400, our basic beauty with plenty of muscle for people who like power on the job — powerful features and staying power, too!

Next comes the AP500, the performer. For memory and advanced text editing features, this one's a superstar.

And no other typewriter can touch Canon's top-of-the-line AP550. With full text editing features, it's the choice of professional typists who can have whatever they want.

To fit your expanding responsibilities, the AP400 is easily upgraded to the AP500 or the AP550. And the addition of systems options like Canon's VP2000 or floppy disk units turns your typewriter into a powerful, full-featured text processor. In this high-tech age of rapid obsolescence, Canon provides for your needs of tomorrow, today! And we'll be there to support you, every step of the way.

That's why we believe that the Canon deluxe electronic typewriter is the best typing machine money can buy.

Don't you deserve a Canon?

AP400:

Automatic features and upgradability put the AP400 on the fast track. • 1,000-character phrase memory. • Ten format memories. • Precision-engineering for speed, quiet, and accuracy. • Large display and full-page correction memory. • Range of time-saving automatic functions.

AP550:

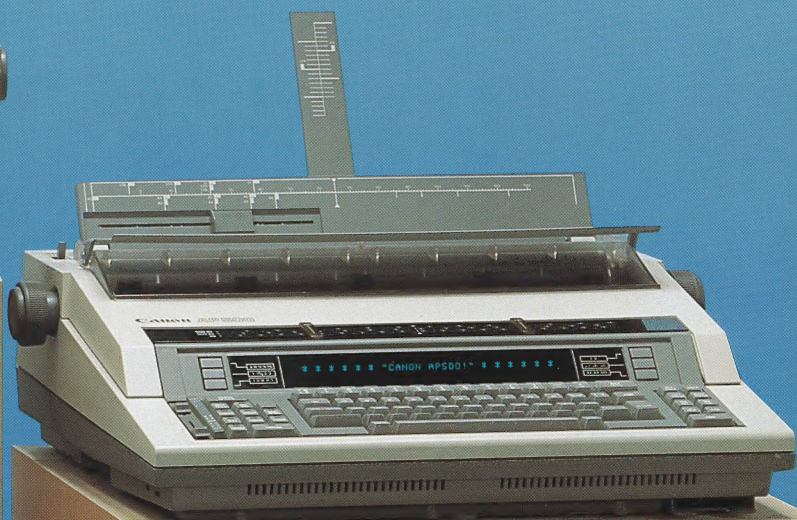

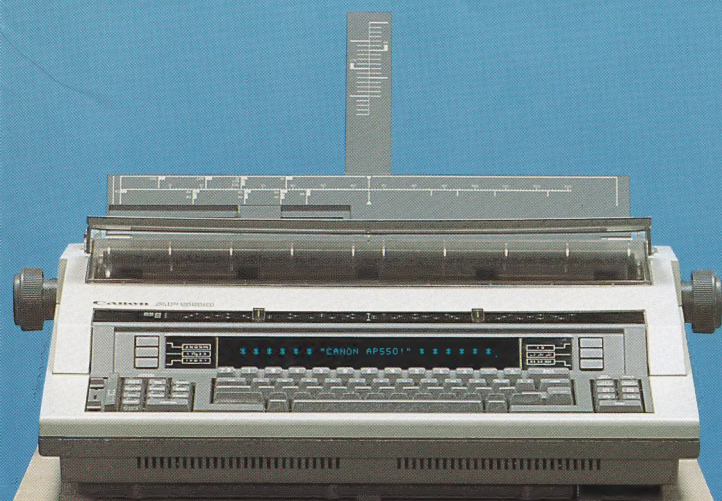

Canon's top-of-the-line: Everything you could ever want in a typewriter and more. • Up to 64KB of memory.

- Powerful editing features, including block move/copy/delete, merge-print, and more.
- Lots of automatic functions.
- Speedy, quiet, versatile printer.

AP500:

Everything the AP400 has and more! • Up to 32KB of memory to store text, page formats, stop position formats, and lineframing.

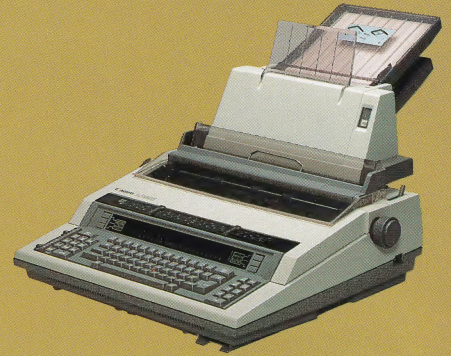

- Advanced editing functions.
- Ultra-precise, bidirectional printing.
- Large fluorescent display and full-page correction memory.

VP2000:

This add-on screen editor works with your typewriter to give you powerful word processing that's extra-easy to learn — even a first-time operator can use it right away! The VP2000 runs WordStar™, one of the world's popular word processing programs.

AP40:

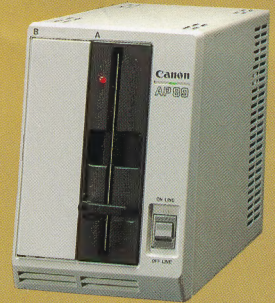

This light, compact cut sheet feeder enables your typewriter to print up to 200 pages, unattended. Its dual cassettes hold 100 sheets each of standard, letter-sized paper.

AP86:

This powerful, compact, easy-to-handle micro floppy disk unit gives your Canon electronic typewriter virtually unlimited memory.

- Hard-shell micro floppies protect 75 standard pages each.
- Floppy document storage cuts down on paperwork.

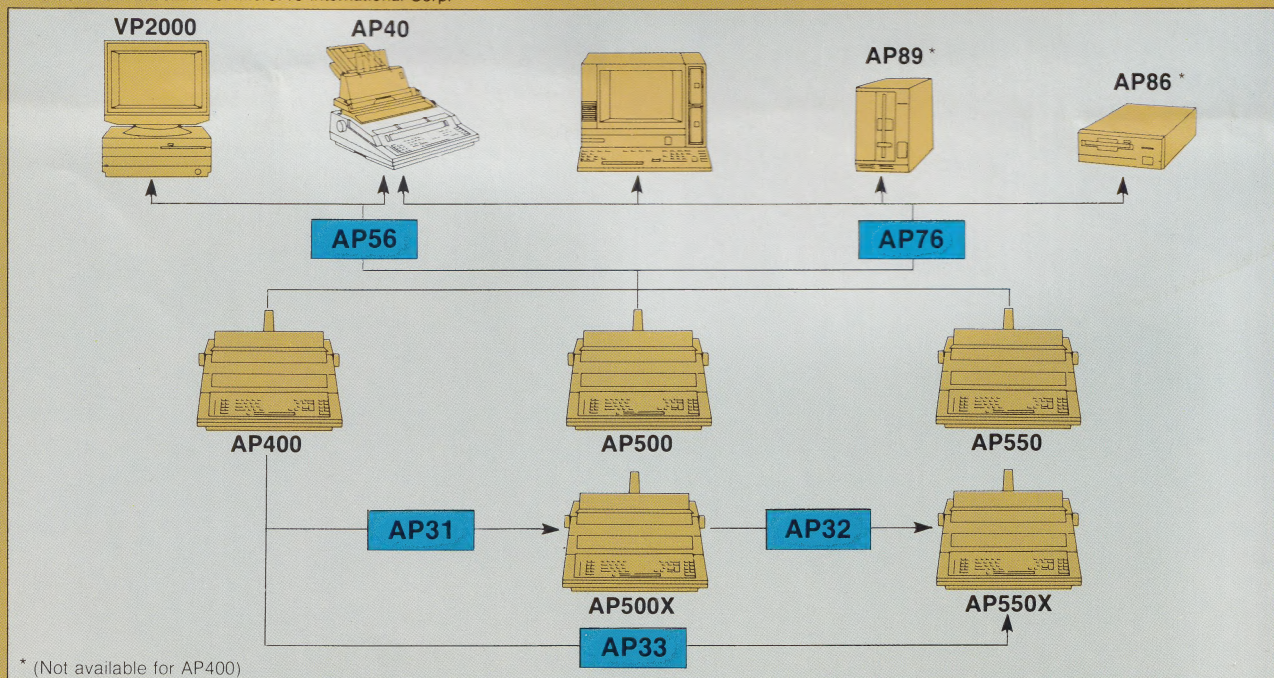

AP89:

Expand your typewriter's memory capacity with this single or double mini floppy disk unit.

- Disks store 150 pages of text each.
- Versatile features for easy document revision, copying, and protection.
- Typewriter display provides simple instructions.

™: WordStar is a trademark of MicroPro International Corp.
